I support Uber. I haven't had a chance to use it in Charleston yet, but I have in other cities. It has been very very convenient, safe, and a very enjoyable experience.

I traveled to Charleston in late August, and arrived late on Thursday nite. There was a large number of people awaiting cabs to get into the city. Fortunately I was able to use UBER to get from the airport into the hotel in which I was staying.

Uber is an extremely valuable service and represents an encouragement for a taxi industry that previously has had very little competition. I would encourage your continued support for this industry.

I am hopeful that you will allow Uber to continue operating in SC. This clean, safe and dependable option which I have used +/- 10 times is a welcome change to the dirty, unreliable and basically non existent presence of local taxi service in our great state.

Thanks!
